

Barnes Annual Achievement Awards

The Barnes Annual Achievement Awards capture the winning spirit of our employees and recognizes their talents, innovation, teamwork, and constant pursuit of excellence that sets our Company apart from the competition.

Created in 2009, the Annual Achievement Awards program provides the opportunity to spotlight teams from across the globe – those who join together and work collaboratively to help take Barnes to the next level of growth and performance. Each year, the bar continues to rise with hundreds of exceptional project teams and individuals being nominated for the awards.

Nominations are open to all local or cross-functional project teams (domestic and international) and provide an excellent opportunity to share with senior management the exemplary work that you and your colleagues have done throughout the year.

Three awards are presented each year:

- One Team Achievement Award of Excellence – monetary award for team celebration not to exceed US\$25,000.
- Two Team Achievement Awards of Distinction – monetary award for team celebration not to exceed US\$12,500.
